

Feedback — Week 3 Quiz

[Help](#)

You submitted this quiz on **Sun 25 May 2014 9:52 PM PDT**. You got a score of **15.00** out of **15.00**.

Question 1

The American Community Survey distributes downloadable data about United States communities. Download the 2006 microdata survey about housing for the state of Idaho using `download.file()` from here:

<https://d396qusza40orc.cloudfront.net/getdata%2Fdata%2Fss06hid.csv>

and load the data into R. The code book, describing the variable names is here:

<https://d396qusza40orc.cloudfront.net/getdata%2Fdata%2FPUMSDict06.pdf>

Create a logical vector that identifies the households on greater than 10 acres who sold more than \$10,000 worth of agriculture products. Assign that logical vector to the variable `agricultureLogical`. Apply the `which()` function like this to identify the rows of the data frame where the logical vector is TRUE. `which(agricultureLogical)` What are the first 3 values that result?

Your Answer	Score	Explanation
<input type="radio"/> 25, 36, 45		
<input checked="" type="radio"/> 125, 238, 262	✓ 3.00	
<input type="radio"/> 236, 238, 262		
<input type="radio"/> 59, 460, 474		
Total	3.00 / 3.00	

Question 2

Using the jpeg package read in the following picture of your instructor into R

<https://d396qusza40orc.cloudfront.net/getdata%2Fjeff.jpg>

Use the parameter native=TRUE. What are the 30th and 80th quantiles of the resulting data?

Your Answer	Score	Explanation
<input checked="" type="radio"/> -15259150 -10575416	✓ 3.00	
<input type="radio"/> -15259150 -594524		
<input type="radio"/> -10904118 -10575416		
<input type="radio"/> -14191406 -10904118		
Total	3.00 / 3.00	

Question 3

Load the Gross Domestic Product data for the 190 ranked countries in this data set:

<https://d396qusza40orc.cloudfront.net/getdata%2Fdata%2FGDP.csv>

Load the educational data from this data set:

https://d396qusza40orc.cloudfront.net/getdata%2Fdata%2FEDSTATS_Country.csv

Match the data based on the country shortcode. How many of the IDs match? Sort the data frame in descending order by GDP rank. What is the 13th country in the resulting data frame?

Original data sources:

<http://data.worldbank.org/data-catalog/GDP-ranking-table>

<http://data.worldbank.org/data-catalog/ed-stats>

Your Answer	Score	Explanation
<input type="radio"/> 190, Spain		
<input type="radio"/> 190, St. Kitts and Nevis		
<input type="radio"/> 189, Spain		
<input type="radio"/> 234, Spain		
<input checked="" type="radio"/> 189, St. Kitts and Nevis	✓ 3.00	
<input type="radio"/> 234, St. Kitts and Nevis		
Total	3.00 / 3.00	

Question 4

What is the average GDP ranking for the "High income: OECD" and "High income: nonOECD" group?

Your Answer	Score	Explanation
<input type="radio"/> 23.966667, 30.91304		
<input type="radio"/> 23, 45		
<input type="radio"/> 30, 37		
<input type="radio"/> 23, 30		
<input checked="" type="radio"/> 32.96667, 91.91304	✓ 3.00	
<input type="radio"/> 133.72973, 32.96667		
Total	3.00 / 3.00	

Question 5

Cut the GDP ranking into 5 separate quantile groups. Make a table versus Income.Group. How many countries are Lower middle income but among the 38 nations with highest GDP?

Your Answer	Score	Explanation
<input type="radio"/> 1		
<input checked="" type="radio"/> 5	3.00	
<input type="radio"/> 12		
<input type="radio"/> 18		
Total	3.00 / 3.00
